Voltaro Brand Book 2026 (fictional demo organisation)

1. Who we are

Voltaro Mobility makes electric scooters for everyday city riders in India.
Our promise is calm, dependable urban mobility. We sell confidence, not adrenaline.

2. Festive and seasonal campaigns

Festive campaigns should greet riders warmly and focus on family, travel and togetherness.
Never use firecracker imagery or noise-related themes; our brand stands for cleaner, quieter cities.
Festive offers must state the exact validity dates and link to the full terms and conditions.

3. Competitors

Never name or mock competitors, and never compare with petrol scooters using insulting language.
Comparative claims are allowed only when they appear in the Approved Claims register.

4. Visual identity summary

Primary colour Voltaro Indigo #3B2FC9. Accent Spark Amber #FFB020, used sparingly for calls to action.
Text colour Midnight #0E1A3A on Cloud #F5F6FA or white. Red is reserved for safety warnings only.
The logo must never be stretched, recoloured, rotated or placed on busy backgrounds.

5. Inclusive communication

Write for riders of every age and ability. Every image needs meaningful alt text.
Keep sentences short. Use CamelCase in hashtags so screen readers can pronounce them.
